Establish a twinning arrangement between the UK and Kenyan/East African/African academic institutions to provide climate finance training to develop the capacity of local and regional policymakers, academia, regulators and financial market participants.

- Development of the capacity of policymakers, academia, regulators, training service providers and financial sector professionals on climate finance
- Increased investments into climate-resilient projects, which lead to sustainable economic growth and employment creation
- Creation of a centre of excellence in green finance in the region

Training delivered to the first cohort of 22 participants across Africa from 6th to 10th December 2021.

- The Africa Climate Finance Leadership Programme
- The Africa Climate Finance Leadership Programme
- The Africa Climate Finance Leadership Programme

Training will be delivered to the third cohort of participants in the last quarter of the 2022 calendar year.
